

# International Working Group on Endoscopic Ear Surgery

<https://iwgees.org>

August 11th 2024

Dear Marta,

On behalf of the IWGEES board, we are pleased to welcome you as a new Member of the International Working Group on Endoscopic Ear Surgery. The objective of the working group is to promote endoscopic ear surgery and associated ear technology all over the world.

Any member should understand that they have a mission to work on promoting the EES and be actively involved in all the activities of the group. You are encouraged to organize EES dissection courses and live surgery. The IWGEES group will be willing to help and participate in every possible way.

The group aims to promote the highest standards of record keeping and research publication which we encourage you to undertake.

We look forward to seeing you in Muscat, Oman December 3rd to 5th 2026 for the 6th World Congress In Endoscopic Ear / Lateral Skull Base Surgery & Related Technologies.

Yours sincerely ,
